

JavaScript 30-Day Learning Roadmap

Goal: From Beginner to Confident Front-End JavaScript Developer in 30 Days

Time Commitment: 4 Hours/Day

WEEK 1 — Core Foundations (Days 1–7)

Day	Topic	Key Concepts
Day 1	JS Introduction	Basics of JS, console.log, linking JS
Day 2	Variables & Data Types	var, let, const, data types
Day 3	Operators & Conditionals	Operators, if/else, ternary
Day 4	Loops	for, while, do-while
Day 5	Functions (Basics)	Definition, parameters, return
Day 6	Functions (Advanced)	Arrow, scope, callbacks
Day 7	Revision + Practice	30 exercises & quiz

WEEK 2 — Data Structures & Core Objects (Days 8–14)

Day	Topic	Key Concepts
Day 8	Arrays Basics	Accessing, iterating
Day 9	Array Methods	map, filter, reduce
Day 10	Objects Basics	this, key-value pairs
Day 11	Objects Advanced	Destructuring, spread
Day 12	Strings	slice, split, replace
Day 13	Date & Math	Date, Math.random
Day 14	Mini Project #1	Student Grade Calculator

WEEK 3 — DOM & Events (Days 15–21)

Day	Topic	Key Concepts
Day 15	DOM Basics	querySelector, style
Day 16	DOM Manipulation	createElement, appendChild
Day 17	Events	addEventListener
Day 18	Event Propagation	Bubbling, capturing
Day 19	Form Handling	preventDefault
Day 20	Mini Project #2	To-Do List App
Day 21	Revision + Quiz	DOM practice

WEEK 4 — Advanced JS & Async (Days 22–30)

Day	Topic	Key Concepts
Day 22	ES6+ Features	Template literals, modules
Day 23	JSON & APIs	JSON.parse, fetch
Day 24	Async JS	Callbacks, promises, async/await
Day 25	Error Handling	try...catch
Day 26	Local Storage	localStorage, sessionStorage
Day 27	Mini Project #3	Weather App
Day 28	Revision	Async & Storage review
Day 29	Final Project	Quiz App / Portfolio
Day 30	Final Review	Debug + Deploy
